

To: All members of ISAT, especially contestants, judges, technicians and scorers

Subject: TTCC 2007 Survey

I have been asked to chair the TTCC committee. This can be a daunting task, more than any one individual can do by themselves. Please help with your suggestions and volunteer to help next year. I don't know if we have taken an exit poll before, but have taken it upon myself to do it this year. Please read thru the list below. Feel free to add items and comments to help us improve the event. This includes things not done, done well, things overlooked and things we've not tried before. If you have suggestions for locations, please include that. Remember, locations should come along with a number of local people to assist. Thanks in advance for your help.
